

## **FAST THROUGHPUT**

## that can save you money as it speeds your workflow.

GETTING THE JOB DONE FASTER AND MORE COST-EFFECTIVELY, IN A NETWORKED SOLUTION COMBINING COLOR SCANNING WITH ECONOMICAL EVERYDAY B&W PRINTING – THAT'S THE BENEFIT OF BIZHUB 652 AND 552. HIGH-SPEED B&W OUTPUT OF MORE THAN A PAGE PER SECOND. COLOR SCANNING AT UP TO 78 ORIGINALS PER MINUTE. ONE-STEP DOCUMENT DISTRIBUTION. POWERFUL FINISHING OPTIONS. AND ALL-IN-ONE PRODUCTIVITY THAT INCORPORATES MANY OF THE ADVANTAGES OF KONICA MINOLTA'S AWARD-WINNING C652 SERIES OF COLOR MFPS.

### An essential component of a total document solution.

Konica Minolta has led the industry in high-speed digital output. With print/copy output up to 65 ppm for the bizhub 652, 55 ppm for the bizhub 552, and color scanning at up to 78 originals per minute for both models, these two bizhub MFPs are perfect B&W complements to your total document solution — integrating cost-effective B&W output, seamless networking, enhanced security and modular options for finishing and fax.

For high-volume document traffic in legal, healthcare, education, government and other applications, the bizhub 652 and 552 provide plenty of productivity advantages. Built-in color scanning lets you move information to multiple destinations: Email, FTP server, SMB. Twain scanning enables you to import information directly to desktop PCs. Scan-to-Me and Scan-to-Home provide one-touch convenience to bring documents directly into your workflow. And Scan-to-User Box lets you share information, perform routing functions and adjust document settings as you scan.

To speed network traffic, Gigabit Ethernet provides simple connections. IPv6 protocol increases IP addressing power in large networks. And IEEE 802.1x networking with Extensible Authentication Protocol (EAP) provides an authentication mechanism that allows integration into either LAN or WLAN environments.

The bizhub 652 and 552 also provide standard 250 GB Hard Disk Drives, for high-capacity on-board document storage at the hub of your business. And with all-in-one print, copy, scan and fax capabilities, you can use bizhub Send command to perform simultaneous scanning, Emailing, faxing and storage — a one-step solution to help co-workers, workgroups and outside partners stay ahead of tight deadlines.

#### Technology innovations for 21st-century workflow.

Leading the industry means finding new ways to get the job done better — and inside the bizhub 652 and 552, a host of Konica Minolta innovations help you work faster and smarter.

Our exclusive bizhub OP (Open Platform) design incorporates multiple benefits — including bizhub Architecture, consolidating major functions on uniform modules for fast internal processing with a consistent control interface. The unique Emperon® Print System adds built-in print control, PCL6/PS3 emulation and native XPS functionality to handle print files in any format. And the latest upgrade in bizhub Extended Solution Technology (bEST) gives you seamless interface with the specialized software your business needs for print management, variable printing, account tracking, cost recovery and more.

To improve your monochrome image, Simitri® HD toner utilizes smaller, more uniform particles that reproduce ultra-fine detail. Simitri was the industry's first polymerized toner, now in its 10th Anniversary year — and right from the start, Simitri toner used biomass plant-based materials to reduce environmental impact.

Your documents will also benefit from 1800 dpi equivalent x 600 dpi resolution — with outline PDF function that smoothes edges, so graphics and photos look more realistic, graphics have sharper accuracy and text is more legible.

### High-resolution imaging in simple, hi-tech design.

Sleek dark styling and compact cabinetry will fit in and look great anywhere in your office, so you can place the productivity advantages of the bizhub 652/552 at the center of your workflow — where everyone can benefit from their fast output and quick-scan features.

A large 8.5" color touch-screen makes operation simple for first-time and walk-up users. Thumbnail preview lets you check documents before you print, saving time and cutting down on costly reprinting. Animated screens guide you and make menus more user-friendly. And our award-winning MyTab™ print utility lets each individual set up customized print settings for quick recall.

The InfoLine™ function displays operating status at a glance, even from across the room. For Section 508 compliance, a tilting control panel accommodates wheelchair-bound employees. Blue LED function key lights are easier to see. And paper drawers slide smoothly with just a light pull.

## Clean Planet Recycling: our latest green innovation.

In addition to the cleaner biomass technology developed for Simitri HD toner, Konica Minolta has led the way in a wide range of environmental initiatives.

Our latest achievement is Clean Planet Recycling — the industry's first cost-free program to recycle consumables for all Konica Minolta models. With postage paid UPS labels ready to print from our website recycling consumables has never been easier.

In addition to saving the planet, Konica Minolta also saves you money — with higher toner yield to reduce total cost of ownership and energy-saving modes that minimize power consumption. In manufacturing, we've consistently reduced emissions and minimized pollutants. And our Eco Vision 2050 program is committed to reducing  $\rm CO_2$  emissions by 80% over 2005 levels — helping cut down on greenhouse gases that may contribute to global warming.

#### Enhanced features for print/copy/scan productivity.

The extended feature set built into the bizhub 652 and 552 adds real value to your workflow. The latest Windows drivers handle your printing needs with ease. Universal Printer Drivers provide a common print control interface with standard commands, making print control quick and intuitive right from the start, including auto detection and configuration of networked devices for easy IT integration.

Maximum paper capacity of 6,650 sheets gives you more production power with less operator intervention. You can load up to 12" x 18" paper to print oversized graphics and spreadsheets, two-page spreads, even B&W proofs with crop marks and contrast scales in the margins. The bizhub 652 and 552 can also handle heavy stock, with 100% auto duplexing at rated engine speed, producing two-sided prints and copies without slowing down your output.

Proof copy/print lets you check output before making a full print run. You can even print and scan to and from USB thumb drives, with convenient front input connector — importing and exporting User Box files via USB memory. And you can print wirelessly with the EK-605 Bluetooth® option.

To manage all your document traffic from one convenient location, Internet Fax and IP Address Fax capabilities are built-in. You can also add an optional Super G3 Fax Kit with accelerated transmission and reception features and optional dual line to double your fax handling capacity.

# to produce a wider range of superior documents in-house.

WITH THE BIZHUB 652 AND 552, YOU CAN PRINT AND FINISH CORPORATE COMMUNICATIONS, PRESENTATIONS, REPORTS, USER MANUALS, VARIABLE-DATA MAILINGS, BUSINESS FORMS AND MORE. YOU'LL GET THE JOB DONE FASTER, MAINTAIN CONTROL OF SENSITIVE INFORMATION, AND REVISE AND REPRINT MORE QUICKLY AND COST-EFFECTIVELY. IN HEALTHCARE, LEGAL AND EDUCATIONAL APPLICATIONS, GOVERNMENT OFFICES, CORPORATE CRDS, PRINT-FOR-PAY AND LIGHT PRODUCTION ENVIRONMENTS, THE BIZHUB 652 AND 552 CAN DO IT ALL.

#### **AVAILABLE OPTIONS:**

FK-502 Super G3 Fax Kit

FS-526 Finisher (100 sheets)

FS-527 Finisher (50 sheets)

JS-602 Job Separator for FS-526

JS-603 Job Separator for FS-527

LU-204 LCT (2,500 sheets)

LU-301 LCT (3,000 sheets)

MK-720 Fax Mount Kit for FK-502 or SA-502

OT-503 Output Tray Kit

PI-505 Post Inserter

PK-516 Punch Kit for FS-526

PK-517 Punch Kit for FS-527

SD-508 Saddle Stitcher Kit for FS-526

SD-509 Saddle Stitcher Kit for FS-527

WT-506 Working Table

ZU-606 Z-Folding Unit

#### Powerful options for producing more in-house.

Booklets, insurance reports, patient records, billing inserts, variable data mailings — what kind of documents does your business need most often? And can you produce them in-house, on-demand, to cut costs and save time?

The bizhub 652 and 552 can satisfy your in-house document needs with modular finishing options. Both models accept a powerful Staple Finisher (FS-526) with 100-sheet multi-position stapling and custom sorting and grouping. Using the FS-526, you can expand your finishing capabilities with a Saddle Stitcher Kit (SD-508) for creating 80-page (20-sheet) booklets, a Punch Kit (PK-516) for 2/3-hole punching at top or side, a Z-Fold Unit (ZU-606) for Z-Folding, and a Post-Inserter (PI-505) to add pre-printed covers or chapter dividers. There's even a Job Separator Tray (JS-602) option that adds a third tray to sort print, copy and fax output.

For greater versatility, both models also accept a slim and compact Floor Finisher option (FS-527), giving you a right-size choice of finishing solutions to suit specific in-house production needs. The FS-527 provides 50-sheet stapling and enables you to add a Hole-Punch Kit (PK-517) for 2/3-hole punching at side or top and a Saddle Stitcher Kit (SD-509) for booklets up to 60 pages (15 sheets). An optional Job Separator Tray (JS-603) acts as a third output tray to separate prints, copies and faxes. And with optional FS-527 Floor Finisher or optional OT-503 Output Tray installed, you can produce text signs and monochrome banners up to 11-3/4" x 47-1/4".

## SEAMLESS NETWORKING

# with enhanced security to safeguard valuable information.

DIGITAL DOCUMENT PRODUCTION HAS EVOLVED NEW WAYS OF CREATING AND DISTRIBUTING INFORMATION – AND DRIVEN NEW DEMANDS FOR NETWORKING, SOFTWARE AND SECURITY. THE BIZHUB 652 AND 552 ANSWER THESE DEMANDS WITH POWERFUL SOFTWARE CAPABILITIES AND SECURITY ENHANCEMENTS THAT GIVE YOU GREATER CONTROL AND SUPERIOR SAFEGUARDS. WITH BIZHUB, YOU CAN COUNT ON NETWORKED SOLUTIONS THAT GET THE JOB DONE – WITH WAYS TO MAKE YOU MORE COMPETITIVE IN THE 21ST CENTURY.

### Comprehensive security to protect sensitive information.

Konica Minolta leads the industry in protecting sensitive information — and the bizhub 652 and 552 meet ISO 15408 Common Criteria classification with enhanced security features such as bizhub Secure Print with password security locks. Customized User Authentication for printing, scanning, faxing and User Box. Encrypted PDF workflow to protect information passing from PC to network. And with Audit log/Image log management to track usage and control access to your bizhub device.

IP Filtering lets you register the IP addresses of PCs on your network. SSL/TLS Encryption protects data during exchange between the MFP and network servers. And S/MIME Encryption safeguards your Email exchanges.

You can also add state-of-the-art security options for your documents and devices, including an HID Proximity Card Authentication Kit (AU-201H) for secure access to bizhub MFP functions and a Biometric Authentication Kit (AU-102) for quick "ID and print" operation using safe, secure finger-vein scans to identify users. A Copy Guard kit (SC-507) provides password-protected copy functionality. An HDD Lock function applies password protection to your hard disk drive. Job Erase function automatically overwrites your HDD up to three times — and HDD sanitizing overwrites data in 8 different modes, meeting strict government standards when devices are re-purposed or taken out of service.

## i-Option kits to enhance workflow and simplify operation.

Konica Minolta's i-Option kits provide additional capabilities that make your in-house production system more powerful, flexible and secure.

The LK-101v.2 provides an Image Panel interface to manage User Box files, an enhanced AJAX-capable Web Browser for faster Internet Access, and Scan-to-Sharepoint convenience for quick document distribution. The LK-102 allows you to create PDF documents with government-level AES 128-bit encryption. And the LK-105 lets you quickly search PDF files to locate text and data.

### IT power with interlocking PageScope® software solutions.

With networking, security and workflow advantages, PageScope software makes your bizhub 652 and 552 even more powerful.

PageScope Enterprise Suite v2.0 combines four software modules in a server-based solution for managed printing, account tracking, user authentication and customized user interface.

PageScope Web Connection and PageScope
Net Care Device Manager enable individual
users and IT administrators to manage multiple
devices more easily. PageScope Print Status
Notifier provides notification when your network
print job or network fax has been completed.
And PageScope Data Administrator™ handles
addresses, passwords, and accounts more quickly
and efficiently.

**MyPrint Manager** 

any supported Konica Minolta MFP on the print network.

secure print queue until users authenticate themselves at

PageScope MyPrint Manager holds documents in a

Authentication Manager

PageScope Authentication Manager provides passwordprotected log-in by user name, IC Card or Biometric authentication at each MFP, synchronizes to Active Directory, and automatically adds new users as they join your team.

PageScope MyPanel Manager allows individuals to customize an interface that appears at each MFP and disappears when users log out.

### Konica Minolta: #1 in customer loyalty.

With all these features, functions and capabilities, the bizhub 652 and 552 have one advantage that's even more important: the satisfaction of our customers. Konica Minolta was recognized by Brand Keys for a third consecutive year as the #1 Brand for Customer Loyalty in the MFP Office Copier Market. We are at your service with over 37,000 worldwide employees, cutting-edge research programs in digital and optical technology, and the industry's most complete line of document imaging solutions from desktop to print shop. As long as you count on Konica Minolta, you've made the right decision.
